### Approaches to Multicultural Curriculum Reform

13

2. Additive
3. Transformative
4. Social Action

14

14

---

---

---

---

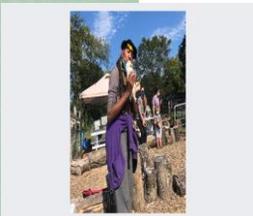

---

---

---

---

### What are culturally-centered nature programs?

Programs and curriculum that centers the stories and roles of Indigenous, Black and Other People of the Global Majority in nature.

Stories that are also localized as well as debunk stereotypes and images.

**Challenge:** Think creatively about how what is presented can be ADAPTED for your program structure or age group.

15

15

---

---

---

---

---

---

---

---

### How to create culturally-centered programs...

- 1. Examine your biases through an anti-racist lens
- 1. Shift your mindset about what counts as nature
- 1. Build trusting relationships with people in YOUR community
- 1. Create inclusive environments that honor culture and promote well-being
- 1. Transform your programming and curriculum to center narratives and roles of Indigenous, Black and other people of the global majority
- 1. Advocate for equitable structures & justice
- 1. Create an action plan to inspire joy
